Electronic Parts Distributor to the Service Industry

The Circuit-Test Line of CV/CC Power Supplies offer high performance and reliability at a reasonable cost. All models are backed with a 2 year warranty and are approved by CSA.

- Variable Output DC Power Supply with High Current Limiting Feature
- Constant Voltage / Constant Current
- Coarse & Fine Adjustments
- Voltage & Current Meters Built-in
- 2 Year Warranty

Single Output

Approved by CSA

Single output CV/CC power supplies available with 0-30VDC @ 3A, 0-30VDC @ 5A, or 0-60VDC @ 5A. Monitor voltage and current simultaneously using the analogue meters. Built in current limiting with overload warning indicators.

PS-3030

0-30VDC @ 3A

PS-5030

0-30VDC @ 5A

PS-5060

0-60VDC @ 5A

Single Output - Digital

Approved by CSA

Single output CV/CC Digital Power Supplies available with 3 Amp or 5 Amp outputs. Monitor output voltage and current simultaneously with the LED digital display. Built in current limiting with overload warning indicators.

PS-3030D

0-30VDC @ 3A

PS-5030D

0-30VDC @ 5A

Single Output - High Current

Approved by CSA

Single output CV/CC power supplies available with 0-16VDC or 0-30VDC outputs. High current DC output with current limiting. With a 10 Amp maximum output, these units are ideal in automotive or marine applications.

PS-1016

0-16VDC @ 10A

PS-1030

0-30VDC @ 10A
